

Arvetio

Arvetio Access Audit for Microsoft 365 — product datasheet

A complete picture of who has access to what across your Microsoft 365 — no guesswork. Desktop application (Windows), read-only scan, your data never leaves your workstation.

Key features

- SharePoint and OneDrive permission audit (whole tenant)
- Permission inheritance chain
- B2B guest and external-link detection
- Automatic risk scoring (Critical – Low)
- Full (app-only) scan of the whole tenant
- Recurring scans and change comparison
- Report — dynamic pivot table
- Governance: remediation actions (higher plan)

Export and integrations

- CSV (UTF-8, Excel)
- PDF — audit report
- SQL database — historical, with de-duplication
- Pivot table

Security and compliance

- Read-only
- Encrypted local database (SQLCipher)
- ES256-signed licence (Azure Key Vault)
- GDPR compliant — EU region

Licensing

Annual licence assigned to the tenant, subscription model, VAT invoice. Sign in with your company Microsoft account. Current pricing is available in the customer portal.
